PAINTING IN VENICE!

Please join Becky for this one of a kind painting and photographic opportunity in Venice, one of the great art capitals of Europe.

We will explore the city's quiet neighborhoods, where narrow cobbled alleyways open up to sunny plazas. Picturesque bridges arch over the canals, which reflect a shimmering light. Learn to interpret these scenes in your own style with one on one instruction from Becky. The group will take a boat trip to the island of Burano, where the colorful storybook village is a painter's dream.

Our native Venetian guide, Laura, is an expert on the art and architecture of this romantic Byzantine city. Our tours with her will be brief and art related, leaving much of the day free to paint and photograph, along the lesser known canals and squares of the city.

Accommodations are at the **Hotel Villa Igea** on the **Campo San Zaccaria**, one of Venice's loveliest squares, and moments away from Piazza San Marco, home of the Ducal Palace and the Bridge of Sighs.

All levels and mediums are welcome
